

Coursea - Fundamentals of Visualization with Tableau (University of California, Davis)							
Activity	Start	End	Post Reaction				
Read	Early Morning	Morning	High				
Sing	Afternoon	Evening	Medium				
Dance	Night	Late Night	Low				
Walk	Evening	Night	High				
Sports	Evening	Night	Low				
Gaming	Night	Late Night	Medium				
Watch television	Afternoon	Evening	Medium				
Editorial	Morning	Afternoon	High				
Calligraphy	Evening	Night	High				
Gossips	Afternoon	Night	Low				
Social media	Night	Morning	Low				

<b>Three skills used to create visualization:</b>									
1 Data scrubbing (removing data that was not needed)									
2 Trend recognition (seeing which data are related and are not)									
3 Chart creation (all data was presented in bar plots as it was the easiest to read and interpret)									
<b>Who is this visualization for?</b>									
1 This visuallization is for myself and all those who want to follow up a routine for themselves.
